MOVE CLOSER TO NATURE

ONE OF THE UNIQUE FEATURES OF GREENWICH MILLENNIUM VILLAGE IS THE AMAZING ON-SITE ECOLOGY PARK.

Owned by the Land Trust Charity and managed by The Conservation Volunteers (TCV), this four-acre freshwater wetland site features two lakes and a beach, plus areas of marsh, meadow and woodland. There's also a dipping shed plus a network of wooden boardwalks and bird hides to explore.

Nature has been given a helping hand through the sowing of meadow grassland and the promotion of wild flowers, while the Thames foreshore has been enhanced to attract fish.

The park's picture-perfect lakes are linked to ponds, reedbeds and islets to draw estuarine birds and migrating species, while a 'green corridor' provides an ecological link from the river bank to the far side of the village.

Children will love the extensive eco play area, created with natural and reclaimed materials. They can get active on a log walk, cross-beam balance trail, climbing tower, mast activity net, living willow tunnel and timber team swing. The Ecology Park is also a haven for wildlife, including butterflies, dragonflies and damselflies, bees and over 85 types of birds.

A focal point for the community, the Park is where everyone can get a first-hand experience of nature, while local volunteers can get involved in conservation and management work. There's also a calendar of seasonal community events.
